Article 24

Any processing or working in respect of which it is established, or in respect of which the facts as ascertained, justify the presumption, that its sole object was to circumvent the provisions applicable in the Republic of Macedonia to goods from specific countries, shall under no circumstances be deemed to confer on the goods thus produced the origin of the country where it is carried out within the meaning of Article 23 of this Law.

Article 25

(1) Customs legislation or other legislation of the Republic of Macedonia governing specific fields may provide that a document must be produced as proof of the origin of goods.

CHAPTER 3
VALUE OF GOODS FOR CUSTOMS PURPOSES

Article 27

The provisions of this Chapter shall determine the customs value of goods for the purposes of applying the Customs Tariff and non-tariff measures laid down by special provisions governing specific fields relating to trade in goods.

Article 28

(1) The customs value of imported goods shall be the transaction value, that is, the price actually paid or payable for the goods when sold for export to the customs area of the Republic of Macedonia, adjusted, where necessary, in accordance with Articles 35 and 36 of this Law, provided:

- a) that there are no restrictions as to the disposal or use of the goods by the buyer, other than restrictions which:
 - are provided for under the regulations of the Republic of Macedonia,

- limit the geographical area in which the goods may be resold or
- do not substantially affect the value of the goods;
- b) that the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued;
- c) that no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with Article 35 of this Law and
- d) that the buyer and seller are not related, or, where the buyer and seller are related, that the transaction value is acceptable for customs purposes in accordance with paragraph (2) of this Article.

(2) a) In determining whether the transaction value is acceptable for the purposes of paragraph (1) of this Article, the fact that the buyer and the seller are related shall not in itself be sufficient grounds for regarding the transaction value as unacceptable. In such case, the circumstances surrounding the sale shall be examined and the transaction value shall be accepted provided that the relationship did not influence the price. If, in the light of information provided by the declarant or otherwise, the customs authority has reasons for considering that the relationship influenced the price, it shall communicate its reasons to the declarant and he shall be given a reasonable opportunity to respond. If the declarant so requests, the communication of the reasons shall be in writing;

b) In a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with the provisions of paragraph (1) of this Article wherever the declarant demonstrates that such value closely approximates to one of the following occurring at or about the same time:

- 1) the transaction value in sales, between buyers and sellers who are not related in any particular case, of identical or similar goods for export to the Republic of Macedonia;
- 2) the customs value of identical or similar goods, as determined under Article 32 of this Law and
- 3) the customs value of identical or similar goods, as determined under Article 33 of this Law.

In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in Article 35 of this Law and costs incurred by the seller in sales in which he and the buyer are not related and where such costs are not shown in sales in which he and the buyer are related.

- c) The criteria set forth in paragraph (2) item b) of this Article are to be used at the request of the declarant and only for comparison purposes and not for substitution of values.
- (3) a) The price actually paid or payable is the total payment made or to be made by the buyer to or for the benefit of the seller for the imported goods and includes all payments made or to be made as a condition of sale of the imported goods by the buyer to the seller or by the buyer to a third party to satisfy an obligation of the seller. The payment need not necessarily take the form of a transfer of money. Payment may be made by way of letters of credit or negotiable instrument and may be made directly or indirectly and
- b) Activities, including marketing activities, undertaken by the buyer on his own account, other than those for which an adjustment of the value is provided in accordance with Article 35 of this Law, are not considered to be an indirect payment to the seller, even though they might be regarded as of benefit to the seller or have been undertaken by agreement with the seller. Their cost shall not be added to the price actually paid or payable in determining the customs value of imported goods.

Article 29

- (1) a) Where the customs value cannot be determined under Article 28 of this Law, the transaction value of identical goods sold for export to the Republic of Macedonia and exported at or about the same time as the goods being valued, shall be considered as customs value.
- b) When this Article is applied, in the determining of the customs value, the transaction value of the identical goods sold at a same commercial level, and mainly in the same quantity as the goods being valued is used. When such sale is not found, the transaction value of identical goods sold at a different commercial level and/or in different quantities is used with the necessary adjustments in regard to the differences in the commercial level and/or the quantity, and under the condition that such adjustment may be made based on evidence making clear the justification and accuracy of the adjustment regardless of the fact whether the value is increased and/or decreased with the adjustment.
- (2) When the costs referred to in Article 35 paragraph (1) item d) of this Law are included in the transaction value, an adjustment is to be

made in order to take into account the substantial differences of those costs of the imported goods and the identical goods arising from the difference in distance and type of transport.

(3) If when this Article is applied, more than one transaction value of identical goods is established, the lowest such value is used to determine the customs value of the imported goods.

Article 30

- (1) a) If the customs value of the imported goods cannot be determined in accordance with Articles 28 and 29 of this Law, the transaction value of similar goods shall be considered as customs value, sold for export to the Republic of Macedonia and exported at the same or about the same time as the goods being valued.
- b) When this Article is applied, in the determining of the customs value, the transaction value of similar goods sold at the same commercial level and mainly in the same quantity as the goods being valued is used. When such sale is not found, the transaction value of similar goods sold at a different commercial level and/or in different quantities shall be used with the necessary adjustments in regard to the differences in the commercial level and/or the quantity, and under the condition that such adjustment may be made based on evidence making clear the justification and accuracy of the adjustment regardless of the fact whether the value is increased and/or decreased with the adjustment.

(2) When the charges referred to in Article 35 paragraph (1) item e) of this Law are included in the transaction value, an adjustment is to be made in order to take into account the substantial differences of those costs and charges of the imported goods and the similar goods arising from the difference in distance and type of transport.

(3) If when this Article is applied more than one transaction value of similar goods is established, the lowest such value is used to determine the customs value of the imported goods.

Article 31

If the customs value of the imported goods cannot be determined in accordance with Articles 28, 29 and 30 of this Law, the customs value shall be determined in accordance with Article 32 of this Law. If the customs value cannot be determined in accordance with Article 32 of this Law, the customs value shall be determined in accordance with Article 33 of this Law, except in the case when the declarant requests the order of application of Article 32 and Article 33 of this Law to be changed.

Article 32

- (1) a) If the imported goods or identical or similar imported goods are sold in the Republic of Macedonia in the same condition in which they were imported, the customs value of such imported goods, in accordance with the provisions of this Article, is to be established on the basis of the unit price to which the imported or identical or similar imported goods in such condition, in the greatest aggregate quantity, are sold to persons who are not related to the persons they purchase the goods from, at the same or about the same importation time as the valued goods, under the condition that the price is reduced of the amount of:

- b) If neither the imported goods nor the identical or similar imported goods are sold at the same or about the same time of the importation of the goods being valued, the customs value of the goods subject to the provisions of paragraph (1) item a) of this Article, shall be determined by the unit price at which the imported or identical or similar imported goods were sold in the Republic of Macedonia in the same condition they were imported in, at the earliest date following the importation of the goods being valued, but prior to the expiration of 90 days of such import.

(2) If in the Republic of Macedonia, the imported goods or identical or similar imported goods are not sold in the same condition as on importation, in that case, if the importer so requires, the customs value shall be determined based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in the Republic of Macedonia who are not related to the persons they are buying the goods from, under the condition that in the valuating process, the value incurred with the processing and the reductions referred to in paragraph (1) item a) of this Article, are considered.

Article 33

(1) The customs value of the imported goods, in accordance with the provisions of this Article, is determined on the basis of the computed value. The computed value is a sum of:

- a) the value of the material and the costs of production or other processing employed in the producing of the imported goods;
- b) the amount of profit and general expenses equal to the amount usually reflected in the sale of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export in the Republic of Macedonia and
- c) the cost or value of the items referred to in Article 35 paragraph (1) under e) of this Law.

(2) Any person who is not a resident of the Republic of Macedonia may not be requested or forced to provide inspection or allow access to any receipt or other document for the purpose of determining the computed value. The customs authority may check the data provided on behalf of the manufacturer of the goods for the purpose of determining the customs value in accordance with this Article in another country, with the previous authorisation of the manufacturer and under the condition that the authorities of the respective country are timely notified and do not withstand the inspection.

Article 201

(1) Domestic goods which, having been exported from the customs area, are returned to that area and released for free circulation within a period of three years shall, at the request of the party, be granted relief from import duties. The three-year period may be exceeded in case of justified circumstances.

Where, prior to their exportation from the customs area, the returned goods have been released for free circulation at reduced or zero import duty because of their use for a particular purpose, relief from payment of import duties shall be granted only if they are to be re-imported for the same purpose. Where the purpose for which the goods in question are to be imported is no longer the same, the amount of import duties chargeable upon them shall be reduced by any amount levied on the goods when they were first released for free circulation. Should the latter amount exceed that levied on the entry for free circulation of returned goods, no refund shall be granted.

(2) The relief from import duties provided for in paragraph (1) of this Article shall not be granted in the case of goods exported from the customs area under the outward-processing procedure unless those goods remain in the state in which they were exported;

Article 202

The relief from import duties provided for in Article 201 of this Law shall be granted only if the goods are re-imported in the same state in which they were exported. The circumstances in which and the conditions under which this requirement may be waived shall be determined in accordance with the regulation referred to in Article 257 of this Law.

Article 203

(1) The provisions of Articles 201 and 202 of this Law shall apply accordingly to compensating products originally exported or re-exported subsequent to an inward-processing procedure.

(2) The amount of import duties legally owed shall be determined on the basis of the rules applicable under the inward-processing procedure, the date of re-export being regarded as the date of release of the goods for free circulation.

TITLE 7 CUSTOMS DEBT CHAPTER 1 GUARANTEE TO COVER CUSTOMS DEBT

Article 204

(1) Where, in accordance with customs rules, the customs authority requires guarantee to secure payment of a customs debt, such security

shall be provided by the person who is liable or who may become liable for that debt.

(2) The customs authority shall require only one guarantee to be provided in respect of one customs debt.

(3) The customs authority may authorise the guarantee to be provided by a person other than the person from whom it is required.

(4) Where the person who has incurred or who may incur a customs debt is a state authority, municipality, the City of Skopje or public legal entity, no guarantee shall be required.

(5) The customs authority may waive the requirement for provision of guarantee where the amount to be secured does not exceed 150 EUR in equivalent denar value.

(2) Where the guarantee referred to in paragraph (1) of this Article is not required, the customs authority may nevertheless require from the person referred to in Article 204 paragraph (1) of this Law, an undertaking to comply with the obligations which that person is legally obliged to fulfil.

(3) The guarantee referred to in paragraph (1) of this Article shall be required:

- at the time of application of the rules requiring such security to be provided or

Article 206

(1) At the request of the person referred to in Article 204 paragraph (1) or (3) of this Law, the customs authority shall allow comprehensive guarantee to be submitted to cover two or more operations, in respect of which a customs debt has been or may be incurred.

(2) The authorisation referred to in paragraph (1) of this Article shall be granted only to persons who satisfy the following conditions:

(3) Where a comprehensive guarantee is to be provided for customs debts and other charges and levies which may be incurred or where a comprehensive guarantee is to be provided for other charges and levies which have been incurred, the person may be authorised to use a comprehensive guarantee with a reduced amount or to have a guarantee waiver provided that he fulfils the following criteria:

- (a) a satisfactory system of managing commercial and, where appropriate, transport records, which allows appropriate customs controls;
- (b) proven solvency.

(4) The manner of establishing the fulfilment of the criteria referred to in paragraph (3) of this Article, as well as the manner and procedure for granting the authorisations referred to in paragraphs (2) and (3) of this Article shall be determined with the regulation referred to in Article 257 of this Law.

Article 207

(1) Where customs legislation makes it compulsory for guarantee to be provided, and subject to the specific provisions laid down for transit in accordance with the regulation referred to in Article 257 of this Law, the customs authority shall fix the amount of such guarantee at a level equal to:

- the precise amount of the customs debt or debts in question where that amount can be established with certainty at the time when the guarantee is required and

- in other cases the maximum amount, as estimated by the customs authority, of the customs debt or debts which have been or may be incurred.

(2) Where comprehensive guarantee is provided for a customs debt which varies in amount over time, the amount of such guarantee shall be set at a level enabling the customs debt in question to be covered at all times.

(3) Where customs legislation provides that the provision of guarantee is optional and the customs authority requires guarantee to be provided, the amount of the guarantee shall be fixed by that authority so as not to exceed the level provided for in paragraph (1) and (2) of this Article.

(4) The circumstances in which and the conditions under which a flat-rate guarantee may be provided shall be determined in accordance with the regulation referred to in Article 257 of this Law.

Article 208

(1) A guarantee may be provided in one of the following types:

- (a) by a cash deposit or by any other instrument equivalent to a cash deposit, made in Denars;
- (b) by an undertaking given by a guarantor;
- (c) by another type of guarantee which equally ensures that the amount of import or export duties corresponding to the customs debt or any other charges will be paid.

(2) The Minister of Finance shall prescribe in more details the types of guarantees referred to in paragraph (1) of this Article and shall determine the manner of their utilization.

Article 209

Erased

Article 210

(1) The guarantor shall issue the guarantee in writing, undertaking to pay the customs debt, including the interest and caused expenses relating to the collection procedure of the unpaid customs debt. The

guarantor shall, together with the customs debtor, jointly and severally be responsible for the amount which falls to be paid.

(2) The guarantor must be a third person and must be approved by the customs authority.

(3) The customs authority may refuse to approve the guarantor or form of guarantee proposed where they consider that the guarantor or form of guarantee proposed do not secure the payment of the customs debt within the prescribed period.

Article 211

The person required to provide guarantee shall be free to choose between the types of guarantee laid down in Article 208 of this Law. The customs authority may refuse to accept the type of guarantee proposed where it does not ensure the proper implementation of the customs procedure concerned. The same shall apply as regards the guarantee proposed. The customs authority may require that the type of guarantee chosen be maintained for a specific period.

Article 213

Where the customs authority establishes that the guarantee provided does not secure, or is no longer certain that it secures or no longer sufficient to secure payment of the customs debt within the prescribed period, it shall require from the person referred to in Article 204 paragraph (1) of this Law, at his discretion, to provide additional guarantee or to replace the original guarantee with a new guarantee.

Article 214

(1) The guarantee shall not be released until such time as the customs debt in respect of which it was given is extinguished or can no longer arise. Once the customs debt is extinguished or can no longer arise, the guarantee shall be released forthwith.

(2) Once the customs debt has been extinguished in part or may arise only in respect of part of the amount which has been secured, the part of the guarantee shall be accordingly released at the request of the person concerned, unless the amount in question does not justify such action.

Article 215

Provisions derogating from those contained in this Chapter shall, where necessary, be adopted in accordance with the regulation referred to in Article 257 of this Law in order to take into consideration the international conventions.

- where appropriate, the person required to fulfil the obligations arising from temporary storage of the goods or from the use of the customs procedure under which those goods are placed.

Article 219

(1) A customs debt on importation shall be incurred through:

- a) non-fulfilment of one of the obligations arising, in respect of goods liable to import duties, from their temporary storage or from the use of the customs procedure under which they are placed or

- b) non-compliance with a condition governing the placing of the goods under that procedure or the granting of a reduced or zero rate of import duty by virtue of the end-use of the goods, in cases other than those referred to in Article 218 of this Law, unless it is established that those failures have no significant effect on the correct operation of the temporary storage or customs procedure in question.

(2) The customs debt shall be incurred either at the moment when the obligation whose non-fulfilment gives rise to the customs debt ceases to be met or at the moment when the goods are placed under the customs procedure concerned where it is established subsequently that a condition governing the placing of the goods under the said procedure or the granting of a reduced or zero rate of import duty by virtue of the end-use of the goods was not in fact fulfilled.

(3) The debtor shall be the person who is required, according to the circumstances, either to fulfil the obligations arising, in respect of goods liable to import duties, from their temporary storage or from the use of the customs procedure under which they have been placed, or to comply with the conditions governing the placing of the goods under that procedure.

Where goods disappear and where their disappearance cannot be explained to the satisfaction of the customs authority, that authority may regard the goods as having been consumed or used in the free zone or the free warehouse.

(2) The debt shall be incurred at the moment when the goods are consumed or are first used under conditions other than those laid down by customs rules and other regulations.

(3) The debtor shall be the person who consumed or used the goods and any persons who participated in such consumption or use and who knew or should reasonably have known that the goods were being consumed or used under conditions other than those laid down by customs rules and other regulations.

(4) Where the customs authority regards goods which have disappeared as having been consumed or used in the free zone or the free warehouse and it is not possible to apply paragraph (3) of this Article,

the person liable for payment of the customs debt shall be the last person known to this authority to have been in possession of the goods.

Article 221

(1) By way of derogation from Articles 217 and 219 paragraph (1) item a) of this Law, no customs debt on importation shall be deemed to be incurred in respect of specific goods where the person concerned proves that the non-fulfilment of the obligations which arise from:

- the provisions of Articles 48 to 51 and Article 187 paragraph (1) indent 2 of this Law or
- keeping the goods in question in temporary storage or
- the use of the customs procedure under which the goods have been placed,

results from the total destruction or irretrievable loss of the said goods as a result of the actual nature of the goods or unforeseeable circumstances or *force majeure*, or as a consequence of authorisation granted by the customs authority. Goods shall be irretrievably lost when they are rendered unusable by any person.

(2) Nor shall a customs debt on importation be deemed to be incurred in respect of goods released for free circulation at a reduced or zero rate of import duty by virtue of their end-use, where such goods are exported or re-exported with the permission of the customs authority.

Article 222

Where, in accordance with Article 221 paragraph (1) of this Law, no customs debt is deemed to be incurred in respect of goods released for free circulation at a reduced or zero rate of import duties on account of their end-use, any scrap or waste resulting from such destruction shall be deemed to be foreign goods.

Article 223

Where in accordance with Article 218 or 219 of this Law a customs debt is incurred in respect of goods released for free circulation at a reduced rate of import duties on account of their end-use, the amount paid when the goods were released for free circulation shall be deducted from the amount of the customs debt. This provision shall apply accordingly where a customs debt is incurred in respect of scrap and waste resulting from the destruction of such goods.

Article 224

(1) A customs debt on exportation shall be incurred through the exportation from the customs area, under cover of a customs declaration, of goods liable to export duties.

(2) The customs debt shall be incurred at the time when such customs declaration is accepted.

(3) The debtor shall be the declarant. In the event of indirect representation, the person on whose behalf the customs declaration is made shall also be a debtor.

Article 225

Article 226

(2) The debt shall be incurred at the time when the goods reach a destination other than that for which they were allowed to leave the customs area with total or partial relief from export duties or, should the customs authority be unable to determine that time, the expiry of the time limit set for the production of evidence that the conditions entitling the goods to such relief have been fulfilled.

(3) The debtor shall be the declarant. In the event of indirect representation, the person on whose behalf the declaration is made shall also be a debtor.

Article 227

The customs debt referred to in Articles 216 to 220 and 224 to 226 of this Law shall be incurred even if it relates to goods subject to measures of prohibition or restriction on importation or exportation of any kind whatsoever. However, no customs debt shall be incurred on the unlawful introduction into the customs area of counterfeit currency or of narcotic drugs and psychotropic substances which do not enter into the economic circuit strictly supervised by the competent authorities with a view to their use for medical and scientific purposes. For the purposes of punitive provisions as applicable to violation of customs rules, customs debt shall nevertheless be deemed to have been incurred where, under the punitive provisions, customs duties provide the basis for determining penalties, or the existence of a customs debt is grounds for initiating criminal proceedings.

Article 228

Where customs regulations provide for favourable tariff treatment of goods by reason of their nature or end-use or for relief or total or partial exemption from import or export duties pursuant to Articles 20, 95, 158 or 193 to 203 of this Law, such favourable tariff treatment, exemption or partial or total relief shall also apply in cases where a customs debt is incurred pursuant to Articles 217 to 220, 225 or 226 of this Law, provided that the behaviour of the person concerned involves neither fraudulent dealing nor obvious negligence and provided he proves that the other conditions for the application of favourable tariff treatment, exemption or partial or total relief have been satisfied.

Article 229

Where several persons are liable for payment of one customs debt, they shall be jointly and severally liable for the payment of such debt.

Article 230

(1) Save as otherwise prescribed by this Law, the amount of the import or export duty applicable to goods shall be determined on the basis

of the taxation elements valid for those goods at the time when the customs debt in respect of them is incurred. The provisions of this paragraph shall be without prejudice to the application of the provisions of paragraph (2) and paragraph (3) of this Article.

(2) Where it is not possible to determine precisely when the customs debt is incurred, the time to be taken into account in determining the taxation elements valid for the goods concerned shall be the time when the customs authority establishes that the goods are in a situation in which a customs debt is incurred for the goods.

(3) Where the information available to the customs authority enables it to establish that the customs debt was incurred prior to the time referred to in the paragraph (2) of this Article, the amount of the import and export duties chargeable on the goods in question shall be determined on the basis of the taxation elements valid for the goods at the earliest time when existence of the customs debt may be established from the information available.

(4) Compensatory interest shall apply in the circumstances and under the conditions to be defined in the regulation referred to in Article 257 of this Law, in order to prevent the wrongful acquisition of a financial advantage through deferment of the date on which the customs debt was incurred or entered into the accounts of the customs authority.

Article 231

(1) A customs debt shall be incurred:

- at the place where the events from which the customs debt arises occur,
- if it is not possible to determine the place from indent 1 of this paragraph, at the place where the customs authority establishes that the goods are in a situation in which a customs debt is incurred and
- if the goods have been entered for a customs procedure which has not been discharged, and the place cannot be determined pursuant to the first or second indent of this paragraph within the period of time determined with the regulation referred to in article 257 of this Law, the place where the goods were either placed under the customs procedure concerned or were introduced into the customs area under that procedure.

(2) Where the information available to the customs authority enables them to establish that the customs debt was already incurred

when the goods were in another place at an earlier date, the customs debt shall be deemed to have been incurred at the place which may be established as the location of the goods at the earliest time when existence of the customs debt may be established.

Article 232

(1) In so far as the Agreements concluded between the Republic of Macedonia and third countries provide for the granting on importation into those countries of preferential tariff treatment for goods originating in the Republic of Macedonia within the meaning of such agreements, and where the goods have been obtained under the inward-processing procedure, foreign goods incorporated in the said originating goods are subject to payment of the import duties payable thereon. The validation of the documents necessary to enable such preferential tariff treatment to be obtained in third countries shall cause a customs debt on importation to be incurred.

(2) The moment when such customs debt is incurred shall be deemed to be the moment when the customs authority accepts the export customs declaration relating to the goods in question.

(3) The debtor shall be the declarant. In the event of indirect representation, the person on whose behalf the declaration is made shall also be a debtor.

(4) The amount of the import duties corresponding to this customs debt shall be determined under the same taxation elements as in the case of a customs debt resulting from the acceptance, on the same date, of the declaration for release for free circulation of the foreign goods concerned for the purpose of terminating the inward-processing procedure.

CHAPTER 3 COLLECTION OF THE AMOUNT OF THE CUSTOMS DEBT

Section 1 Entry in the accounts and communication of the amount of duty to the debtor

Article 233

(1) Each and every amount of import duty or export duty resulting from a customs debt, hereinafter called "amount of duty", shall be

calculated by the customs authority as soon as they have the necessary particulars, and entered by that authority in the customs accounting records.

(2) The provisions of paragraph (1) shall not apply:

- (a) where provisional anti-dumping or countervailing duty has been introduced;
- (b) where the amount of duty legally due exceeds that determined on the basis of binding information or
- (c) where the amount of duty is lower than that determined in the regulation referred to in Article 257 of this Law.

(3) The customs authority shall not enter in the customs accounting records the amounts of duty which could not be communicated to the debtor within the time limit referred to in Article 235 paragraph (4) of this Law.

Article 234

(1) Where a customs debt is incurred as a result of the acceptance of the declaration of goods for a customs procedure other than temporary importation with partial relief from import duties or any other act having the same legal effect as such acceptance the amount corresponding to such customs debt shall be entered in the accounting records as soon as it has been calculated and, at the latest, on the second day following the day on which the goods were released.

(2) Provided that payment has been secured, the total amount of duty relating to all the goods released to one and the same person during a period fixed by the customs authorities, which may not exceed 31 days, may be covered by a single entry in the accounting records at the end of that period. Such entry in the accounting records shall take place within five days of the expiry of the period in question.

(3) Where it is provided that goods may be released subject to meeting certain conditions laid down by the legislation of the Republic of Macedonia governing either determination of the amount of the debt or its collection, entry in the accounting records shall take place no later than two days following the day on which the amount of the debt or the obligation to pay the duties resulting from that debt is determined or fixed.

(4) Where the customs debt relates to a provisional anti-dumping or countervailing duty, that duty shall be entered in the accounting records no later than two months following the publication of the legislation introducing a definitive antidumping or countervailing duty in the "Official Gazette of the Republic of Macedonia".

(5) Where a customs debt is incurred under conditions other than those referred to in paragraphs (1) and (2) of this Article, the relevant amount of duty shall be entered in the accounting records within two days of the date on which the customs authority is in a position to:

- (a) calculate the amount of duty in question, and
- (b) determine the debtor.

Article 234-a

(1) Where the amount of duty resulting from a customs debt has not been entered in the accounting records in accordance with Article 234 of this Law or has been entered in the accounting records at a level lower than the amount legally owed, the amount of duty to be recovered or which remains to be recovered shall be entered in the accounting records within two days of the date on which the customs authority becomes aware of the situation and is in a position to calculate the amount legally owed and to determine the debtor (subsequent entry in the accounts).

(2) Except in the cases referred to in paragraphs (2) and (3) of Article 233 of this Law, subsequent entry in the accounting records shall not be executed where:

- (a) the original decision not to enter the duty in the accounting records or to enter it in the accounting records at a amount lesser than the amount legally owed was taken on the basis of provisions and acts invalidated at a later date;
- (b) the amount of duty legally owed was not entered in the accounting records due to an error on the part of the customs authority which error could not reasonably have been detected by the person liable for payment, the latter for his part having acted in good faith and complied with all the provisions laid down by the legislation in force as regards the customs declaration. With regard to the error and good faith, also the following shall be applied:

- Where the preferential status of the goods is established on the basis of a system of administrative cooperation involving the authorities of another country, the issue of a certificate by those authorities, should it prove to be incorrect, shall constitute an error which could not reasonably have been detected;
- The issue of an incorrect certificate shall not, however, constitute an error where the certificate is based on an incorrect account of the facts provided by the exporter, except where, in particular, it is evident that the issuing authorities were aware or should have been aware that the goods did not satisfy the conditions laid down for entitlement to the preferential treatment;
- The person liable may plead good faith when he can demonstrate that, during the period of the trading operations concerned, he has taken due care to ensure that all the conditions for the preferential treatment have been fulfilled;
- The person liable may not, however, plead good faith if a notice is published in the *Official Gazette of the Republic of Macedonia*, stating that there are grounds for doubt concerning the proper application of the measures for preferential treatment by the beneficiary country.

(c) the amount of duty is lower than that determined in the regulation referred to in Article 257 of this Law.

- (3) To prevent customs debtor from unlawfully acquiring financial gain, compensatory duty shall be paid in addition to the amount of duty subject to subsequent entry in the customs accounting records. This duty shall be calculated on the amount of unpaid duty, starting from the day the customs debt was incurred, on grounds of Articles 216 to 220 or 224 to 226 of this Law until the day of payment. The compensatory duty of this paragraph shall be calculated by applying reference interest rate referred to in Article 240-b, paragraph (2) item b) and Article 244 paragraph (1) item b) of this Law, increased by the amount of all duties and charges the customs authorities collects, pursuant this or other Law.

Article 235

(1) As soon as it has been entered in the customs accounting records , the amount of duty shall be communicated to the debtor in accordance with appropriate procedures.

(2) Where the amount of duty payable has been entered in the customs declaration, it shall not be communicated in accordance with paragraph (1) unless the amount of duty indicated does not correspond to the amount determined by the authorities.

(3) Where paragraph (2) of this Article is applied, release of the goods by the customs authority shall be equivalent to communication to the debtor of the amount of duty entered in the accounts. However, when Article 234(2) is applied, release of the goods shall not be equivalent to communication to the debtor.

(4) Communication to the debtor shall not take place after the expiry of a period of three years from the date on which the customs debt was incurred. This period shall be suspended from the time of initiation of administrative dispute before the competent court for the duration of the administrative procedure conducted in accordance with (3) of Article 7 of this Law.

(5) Where the customs debt is the consequence of an act which, at the time it was committed, could have resulted in criminal court proceedings, the amount may, under the conditions set out in the provisions in force, be communicated to the debtor after the expiry of the three-year period referred to in paragraph (4) of this Article.

Section 2

Time limit and procedures for payment of the amount of duty

Article 236

(1) Amounts of duty communicated in accordance with Article 235 of this Law shall be paid by debtors within the following periods:

- (a) without prejudice to the provisions of Article 7 paragraph (5) of this Law and if the person is not entitled to any of the payment facilities laid down in Articles 238 to 240-b of this Law, payment shall be made within 10 days following communication to the debtor of the amount of duty owed.

In the case of aggregation of entries in the customs accounting records under the conditions laid down in Article 234 paragraph (2) of this Law, the period for payment shall

be so fixed so as not to enable the debtor to obtain a longer period for payment than if he had been granted deferred payment.

Extension of the period may also be granted by the customs authorities at the request of the debtor where the amount of duty to be paid results from a procedure for post-clearance recovery. Without prejudice to Article 240-b of this Law, such extensions shall not exceed the time necessary for the debtor to take the appropriate steps to discharge his obligation;

- (b) if the person is entitled to any of the payment facilities laid down in Articles 238, 239, 240-a and 240-b, payment shall be made no later than the expiry of the period or periods specified in relation to those facilities.

(2) The cases and conditions in which the debtor's obligation to pay duty shall be suspended may also be provided for in the regulation referred to in Article 257 of this Law:

- where an application for remission of duty is made in accordance with Article 250, 252 or 253 of this Law,
- where goods are seized with a view to subsequent confiscation in accordance with the second indent of point (c) or with point (d) of Article 247(1), or
- where the customs debt was incurred under Article 218 and there is more than one debtor established.

Article 237

Payment shall be made in cash and in denars or in any other manner in accordance with the provisions governing manners of payment. Payment may also be made by balancing of the dues when the customs authority is to refund import duties while at the same time the customs debtor has an unsettled customs debt toward the customs authority.

Article 238

When the amount of duties payable by the person concerned relates to goods declared for a customs procedure which entails the obligation to pay such duties, the customs authority shall, at that person's request, grant deferment of payment of that amount under the conditions laid down in Articles 239 and 240 of this Law.

Article 239

(1) The granting of deferment of payment shall be conditional on the provision of guarantee by the applicant in accordance with Article 208 of this Law.

(2) Any unforeseen costs for opening a file or for services rendered by the customs authorities in the procedure of granting deferred payment shall be borne by the debtor.

Article 240

1) The customs authority shall decide which of the following systems of deferment of payment shall be applied to all deferments of payments:

- a) deferment of payment is granted for each amount of duty individually entered in the customs accounting records
- b) deferment of payment is granted for the amounts of duty which shall be charged on all the goods released to one and same person during a calendar week or
- c) deferment of payment is granted for the amounts of duty which shall be charged on all the goods released to one and same person during a calendar month.

However, the customs authority may decide the system referred to in point a) of this paragraph and any of the systems referred to in point b) and c) of this paragraph, to be simultaneously applied.

2) The periods for deferred payment of the amounts of duties are as follows:

- a) in the system referred to in paragraph (1) point a) of this Article, each amount of duties entered in the accounts must be paid within 30 days from the day following the date when the amount of duties were entered in the accounts;
- b) in the system referred to in paragraph (1) point b) of this Article, the amounts of duties must be paid on the Friday of the fourth week following that calendar week and
- c) the system referred to in paragraph (1) point c) of this Article, the amounts of duties shall be paid up to the sixteenth day of the month following that calendar month.

Article 240-a

(1) Deferment of payment shall not be granted for amounts of duty which, although relating to goods entered for a procedure which includes the obligation to pay such duty, are entered in the customs accounting records in accordance with the provisions in force concerning acceptance of incomplete declarations, if the declarant has not, by the time of expiry of the period set, provided the data necessary for the definitive valuation of the goods for customs purposes or has not supplied the particulars or the documents missing when the incomplete declaration was accepted.
